

GREETINGS

We want to thank all of the partners during these challenging, Covid-19 pandemic days. Our goal is to make sure everyone is healthy and safe, so please, stay safe and protect the health of your employees and customers during this pandemic. We have been asking from the start of this outbreak that to prevent possible contamination, remember to use all safety measures when delivering products to your customers. Thank you for your support.

SOUTH AFRICA IS GROWING

Despite the global economic slowdown and one of the strictest social lockdowns in the world due to the Coronavirus outbreak, Nasiol in South Africa has seen a surge in need for its surface protection products after the ease in social distancing guidelines.

NASIOI-T FOR PPE

With the Covid-19 pandemic, Nasiol engineers are working hard at finding new ways to protect our surroundings. Nasiol T can be used on Personal Protection Equipment (PPE), such as masks, to ward off potential harmful particles from staying on the surface.
